Summary

Creative and detail-oriented full-stack developer with over 2 years of hands-on experience designing and building robust, scalable web applications. Skilled in front-end and back-end technologies with a passion for clean code, elegant design systems, and delivering value through thoughtful user experiences. Strong collaborator with a problem-solving mindset, experience in international teams, and a constant drive to learn and improve.

Professional Experience

Software Developer

Tutors Finland Oy, Helsinki, Finland

(March 2024 – Present)

- Contributed to the development of NeduAI, an AI-powered career planning platform, using React.js and TypeScript to deliver high-performance, scalable UI components.
- Collaborated with a globally distributed team to integrate RESTful APIs, secure authentication, and data-driven features across projects.
- Focused on SSR optimization, reusable architecture, and accessibility to enhance mobile and desktop user experience.

Frontend Developer

Repliq Limited, Dhaka, Bangladesh

(April 2023 – March 2024)

- Developed front-end modules for Pharmik, a pharmaceutical e-commerce platform, implementing real-time chat and multi-client features using Next.js.
- Engineered the Pro HR dashboard using Next.js and Tailwind-UI, streamlining recruiter workflows and automating CV parsing and tracking.
- Integrated REST APIs and contributed to UI performance enhancements across high-traffic business tools.

Skills
